At the University-A Great Opportunity for Hundreds of Students who Could no

Come Otherwise.

for Handreds of Students who Coold not Come Otherwise.

The announcement that hereafter the West Virginia University is to be kept open all of the year has met with the rost heavty approval all over the state. There are hundreds of ambitious and earnest young men and young women in West Virginia and neighboring states who find it almost impossible to attend college during the winter. They are teachers, preachers and others who must earn their living as they go along. Hitherto all these have been kept out of the university by the necessities of the case—they had to work when the university was closed. Henceforth the university doors will never be closed. The year will be divided into four quarters, probably beginning as follows: January 1, April 1, July 1 and October 1.

While no student or instructor will be expected to work at the university more than nine months out of twelve, unless he so desires, the university itself will be in continuous session throughout the year, there being no longer summer vacation but instead four short vacations, one week long, at the expiration of each twelve weeks. Under this system, a student may begin his work at the beginning of any quarter and may take a vacation either in the summer quarter, or in the autumn, winter or spring quarter, and, indeed, he is at viberty to continue university work during all four quarters if he is strong enough and desires to do so, instructors, also, may arrange to take their vacation at the same time. Arangements have been made to secure of the instructors elect to take

fourth of the instructors elect to take their vacation at the same time. Arrangements have been made to secure outside help when needed. In the summer it is easy to get able instructors from cther institutions at very reasonable salaries.

The courses will be so arranged that the work of each quarter will be complete in itself, and courses for which there is great demand will be given more than once in the same year, so that any student in attendance during any quarter that year may have the opportunity of taking them.

During the summer quarter at least one of the professors of pedagogy will always be on duty to conduct classes and lead round tables for the benefit of teachers, and distinguished educators

teachers, and distinguished educators from other institutions will be present to give courses of six weeks and twelve

weeks.

The summer quarter will be divided into two terms of six weeks each so that some short courses may be given for those who do not desire to spend the entire summer in school. There will be, however, regular tweive weeks courses in the summer quarter such as are given during the other quarters.

This four quarter system ought to draw to the university hundreds of new students and widely extend its sphere of usefulness.

of usefulness.

Auerdotes of "spivins."

William H. Busbey, managing editor of the Chicago Inter Ocean, and formerly an employe of the Columbus, Ohio, State Journal, in contributing anniversary reminiscences to that paper speaks of a tormer Wheeling journalist as fol-

sary reminiscences to that paper speaks of a former Wheeling journalist as follows:

Gale's successor on the Statesman was Mr. Clarkson, who as "Spivens" had a state seputation as a wit and humorist. Spivins had a picturesquely aggressive manner, but a tender heart, and he was nearly always at war with humself. At one of Grant's great receptions Spivins and myself were smuggled into the small state house balcony from which the general was to view the great procession and crowd. Spivins was larke, and in getting to the balcony was summereifully squeezed. He came to the balcony in no pleasant frame of mind, and seeing two boys lounging near the place where he was to stand, he caught them by the arms and hustled them towars, the door saying:

"This is no place for boys, and you want to get out of this."

Just them Grant said quietly:
"Those are my boys."

Spivins made a quick apology, and turning te me said:
"Here, Rusbey, kick me down stairs and all the way up, and report to the general in writing."

This was better than an apology.

In 1867 I left the State Journal for a dime to become Governer Cox's private secretary (in study of public affairs and vublic men a sort of post-graduate course in journalism), and Mr. George K. Nash, then a quiet, gentlemanly law student, as far as possible removed from the Bohemian idea of a newspaper man, succeeded me. Spivins resented the appearance of Nash in the profession, and decided to make it hot for him. He made it his business to refer to Nash as often as possible in his paper, but uniformly spelled his name "Gnash." He kept up his hazing programme until Nash referred in his paper to a reception given to Miss Kellogg, and after dwelling on the lightness and brightness of the scene said: "Miss Kellogg, and the dwelling on the lightness and brightness of the scene said: "Miss Kellogg, and offer dwelling on the lightness and brightness of the scene said: "Miss Kellogg, and offer dwelling on the lightness and brightness of the scene said: "Miss Kellogg, and after dwelling on of the scene said: "Miss Kellogg then retired to the bosom of her boarding house." The next day Spivins confided to me his satisfaction over this performance, saying, in effect: "I ought to have written that sentence myself. That is like me; that is not like Nash. I am going to let up on him," and he did. Judge Nash, by the way, sawed a good deal of wood in those days, and can give all the rest of us pointers on success in life.

What She will do If-

FRANCISCO, Oct. 25.-Miss Grace Elliott, nee Clark, who claims to be the daughter of the late Imblay Clarke, alleged to have left a fortune of \$25,000,000, is confident that she will have no trouble in proving her right to inherit this wast estate. When asked if she would fight the case to the end, she

she would fight the case to the end, enesaid:

"Why there's nothing to fight. The
property is mine and I'll go to England
and get the papers. That's all. I'll give
something to those castern girls who
will have to pay their lawyers, Vice
President Hobart and Governor Griggs.
I'll be liberal, because they are relations, you know. Then I'll come back
and build a handsome residence and
make my home here and I'll marry an
American. No foreign title for me. I'm
going to found a splendid home for
friendless children and dedicate it to
my father's memory. It's hard to realize
I'm so rich." And in this strain she
continued to talk as though the somewhat visionary fortune was already in what visionary fortune was already in

A Cure for Consumption. SAN FRANCISCO, Cal., Oct. 25.—The claim of Dr. Joseph O. Hirschielder, of this city, that he has discovered a cure for consumption announced last April, has been investigated by the faculty of has been investigated by the faculty of the Cooper medical college. Sixteen patients who have been treated with exy-tuberguline, as the doctor calls his preparation, have been examined and the report to be made this week will be favorable. Dr. L. C. Lane, president of the college, announces his faith in the discovery which is in no sense a secret one, as the method of its preparation is freely given to the medical profession.

Was Old Enough.

SACRAMENTO, Cal., Oct. 25.-Aunt Nancy Daniels, n colored woman, is dead here, at the age of one hundred and nineteen years. She was a native of Virginia.

EVERT man having a beard should keep it an even and natural color, and if it is not so aiready, use Buckingham's Dye, and appear tidy.

HABITS OF THE BUMBLEBEE

The Big Queen Searches for a Home in the Early Spring.

In the early spring, when the mead-ows first take on a tinge of green, and the apple trees put forth their rosy buds, we may often see a single large bumble-bee, llying back and forth aross the lawns and pastures, says a writer in St. Nicholas.

lawns and pastures, says a writer in St. Nicholas.

These great been are queens who have just awakened from their long winter's sleep, and are now seeking some favored spot wherein to commence housekeeping and found a colony; for these insects, like their cousins, live in colonies, consisting of three classes or castes—"drones," or males; "queens," or females, and "workers," When our big queen has at last discovered a satisfactory building site, usually a deserted mouse hole, she cleans it of all rubbish and litter, and places within a ball of pollen, in which she lays her eggs. The young grubs hatch out possessed of enormous appetites, and feeding on the pollen, eat into in all directions. At last, when fully grown and their craving for the pollen, eat into in all directions. last, when fully grown and their craving for food is satisfied, they spin cocoons of silk in the remains of the pollen and change to pupae. While her family is thus sieeping quietly within their silk, en cells, the old queen is constantly at work building an analysis.

thus sleeping quietly within their silks en cells, the old queen is constantly at work building up and strengthening the cocons with wax.

Finally their sleep being over, the pupaeses burst, and the young bees come forth in all their glory of black and golden livery and gauxy wings.

The first brood consists entirely of workers, who immediately fall to and retire the mother queen of all work and duties with the exception of laying eggs. They fly hither and thither, always busy and industrious, now plunging into the center of a glorious hollyhock or a sunny dandelion, or bursing about among the modest daisles, or diving head first into some aweet-scented aristocratic lilly or rose, always emerging from their quest for honey covered with the golden dust of pollen. The honey and pollen thus gathered are stored away, and the eggs laid in the waxen cells from which the workers issued; and the next brood, composed of drones and queens, feed upon this store of nectar.

A Sweeping Peahthitten.

A Sweeping Prohibition. KINGSTON, Ont., Oct. 25.—Archbishp Cleary has prohibited Catholics from attending marriages and funerals attending marriages and tunerals in non-Catholic churches. He considers such services devoid of sacramental grace. The mandate was read in St. Mary's Cathedral yesterday morning. The archbishop reserves to himself "the power to absolve from this helnous

THOSE who believe chronic diarrhoea to be incurable should read what Mr. P. E. Grisham, of Gaars Mills, La., has to say on the subject, viz: "I have been a sufferer from chronic diarrhoea ever since the war and have tried all kinds of medicines for it. At last I found a remedy that effected a cure and that was Chamberlain's Colfc, Cholera and Diarrhoea Remedy." This medicine can always be depended upon for collecholera morbus, dysentery and diarrhoea. It is pleasant to take and never falls to effect a cure. 25 and 50 cent sizes for sale by druggists.

THERE is no need of little children being tortured by scald head, eczema and skin eruptions. DeWitt's Witch Hazel Salve gives instant relief and cures permanently. Charles R. Goetze, Market and Twelfth streets; Chatham Sinclair, Forty-sixth and Jacob streets; A. E. Scheele, No. 607 Main street; Exley Bros., Penn and Zane streets; Bowle & Co. Bridgeport. A. E. Scheele, No. ley Bros., Penn and & Co., Bridgeport.

FINANCE AND TRADE.

The Features of the Money and Stock

Markets.

NEW YORK, Oct. 25.—Money on call easy at 2 per cent; last loan 2 per cent; closed offered at 2 per cent. Prime mercantile paper 4@4% per cent. Sterling exchange strong and active, with actual business in bankers' bills at \$4 8544@ 4 85½ for demand and at \$4 82% 64 83½ for sixty days. Posted rates \$4 83% 4 83½ and \$4 86% 88½. Commercial bills \$4 81½. Silver certificates 57½ 655c. Bar stiver 58c. Mexican dollars 45c.

The conviction that a rupture in our relations with Spain will ultimately re-The conviction that a rupture in our relations with Spain will uitimately result from the Cuban question, the danger that the Union Pacific reorganization plan will be upset by the government's desire to postpone the sale and the weakness in New York Central due to yesterday's disaster on its line, combined to break the stock market to-day and demoralized prices throughout the list. The lower prices for American securities in London and the decline in the price of Spanish 4's there of ½ per cent to 58%, were accepted as a measure of the apprehension feit there as to the harm that would be done to values by the threatened rupture. The opening showed sharp declines in the international stocks and the specialties and by noon losses of a point or over had spread to practically every active stock in the list. There was a lull in the activity of the liquidation at that time and a steadying of prices based on a hope that the supreme court would hand down a favorable decision in the

livity of the liquidation at that time and a steadying of prices based on a hope that the supreme court would hand down a favorable decision in the Nebraska maximum freight rate case and that prices of rallway property would tend to improve as a result.

A sharp raily is Chicago Gas on the announcement of the declaration of the regular dividend helped to steady the list. But the afternoon was given to alternate periods of active liquidation and fast failing prices and of stagnation and slight rallies. The announcement of the government's decision to apply for postponement of the foreclosure sale of the Union Pacific and Kansas Pacific properties brought outenomous liquidation of Union Pacific stocks. There was no check apparent in the liquidation or in the fall in the price as a result of the announcement of the reorganization committee that it intended to bid in the Union Pacific main line if need be for the full amount of the government's claim. This would involve un increase of \$8,000,000 over the latest upset price which the syndicate agreed to insure the government and latest upset price which the syndicat agreed to insure the government and over \$12,000,000 over the price fixed a

agreed to insure the government and over \$12,000,000 over the price fixed at the time the present reorganization plan was agreed upon.

The purpose of the reorganization committee to divide the reorganization of the Union Pacific main line and the Kansas Pacific into two operations failed to quiet the doubts of those who have speculated in Union Pacific on the basis of the present reorganization plan. The apparent intention of the government to relegate the whole matter to Congress awakens fears amongst hold-cers of the shares that delay will attend completion of the reorganization. The government second mortuage on the Kansas Pacific for about \$14,000,000 is unprovided for and the reorganization committee take the stand that the government will be allowed to hid the property if it is not willing to take the bid of the committee. The fear that this would endanger the plan of reorganization evidently augmented the selling.

The sales of the stock constituted oneeighth of the total transactions of the
day. The day's net declines in all the
active stocks ran from 1 per cent'to over
2 per cent and in Cansolidated Gas
reached 5½ per cent. The Vanderbilts
were conspicuously weak. A sharp advance of % per cent in the actual rates
for demand sterling exchange was a
feature of the day and was a reflection
of the rising rate of discount in London and of the discounting of accumulating sterling bills here.
Railroad bonds were in sympathy
with stocks. Total sales were \$1,610,000.
United States new 4's and the 5's registered were advanced ½ per cent hid.
The total sales of stocks to-day were
389,206 shares.

389,206 shares. Evening Post's London financial ca-

blegram:

The stock markets were dull to flat to-day, Americans were specially weak, monetary considerations, the cearness of the settlement and the Cuban question being given as reasons for the weakness; but there is no doubt that the fact that a number of options will fall due at the end of the month induces dealers to keep down prices.

It is not likely that the Bank of England's discount rate will advance this

land's discount rate will advance this week, but the German rate may possibly go up.

The average

week, but the German rate may possi-bly go up.

The average contango on Americans at the settlement to-morrow will prob-ably be 4½ per cent.

The Paris and Berlin markets were weak all day, Paris being a large seller of Kaffirs.

CHICAGO-A decline of 1/2c in the De-

cember option marked to-day's session in

CHICAGO—A decline of ½c in the December option marked to-day's session in wheat. The market was staggered at the start by the Liverpool weakness and every firm spot was taken advantage of by holders to unload. The decline in corn was a factor late in the day. Corn was very weak on the huge visible increase and closed a cent lower. Oats declined ½c and provisions closed 2½% clower on light trading.

Wheat opened 1c lower than it closed Saturday, several causes contributing to bring about that radical change. Liverpool quotations were from ¼d to ½d lower to begin with and the Northwestern receipts were heavy. The world's shipments for the week to Europe were again heavy afd considerably in excess of their estimated requirements. The total quantity from all ports exclusive of India was 9.025,000 bushels against 9.504,000 bushels last week, and 9.271,000 bushels the corresponding week of the year before. Minneapoits and Duluth receipts were 1,632 carloads, 1,411 of which were at Minneapoits and 222 at Duluth. Chicago receipts were 255 cars. Apart from the heaviness of to-day's receipts, however, the news from the northwest was very buillish. Estimates by good judges as to the crop of the three principal wheat producing states placed the total at from 110 to 120,000,000 bushels, a considerable reduction from recent figures. London day'ces were to the effect that France was still bidding for native English wheat, but that there was no more available and Russian wheat in London was said to have advanced from 3d to 6d per quarter.

The fluectuations hung for an hour and half on the varying aspects of the visi-

per quarter.
The fluectuations hung for an hour and per quarter.
The fluectuations hung for an hour and a half on the varying aspects of the visible supply, favored or disfavored a larger or smaller increase than had been estimated Saturday. The final outcome of twas an increase rather smaller than had been looked for, the amount being 699,000 bushels increase for the similar week last year of 2,447,000 bushels. December touched 95c, the highest point of the session, shortly after the announcement of the visible increase figures. The quantity of ocean passage increased 800,000 bushels. The export from Atlantic ports for the day were 505,000 bushels as far as heard from Liverpool closed 5,@id lower. A rise of 50 centimes, or equal to 2% oper bushel at Antwerp was the oceasion of the advance in December and May in the middle of the day. The opening was weak at from 96t to 94% for December, against Saturday's close of 95c asked. It sold at 93% and from that up to 95c, in a very irregular way. Near the end of the session it became very heavy, the extreme weakness of corn laving some effect. Longs took profits freely on large quantities and there was no inquiry for wheat for shipment here

having some effect. Longs took profits freely on large quantities and there was no inquiry for wheat for shipment here or reported from elsewhere. The pit filled with selers and the price dropped to 334263% c and was at 934c at the close. There was no comfort for the bulls in corn. The market opened weak, with wheat at a 42% decline. It remained near the opening figures until the visible figures were posted, which showed an astonishing increase of 4,645,000 bushels. This was the corn visible 44,700,000 bushels.

figures were posted, which showed an astonishing increase of 4,645,000 bushels. This was the corn visible 44,700,000 bushels. This was the corn visible 44,700,000 bushels. This was the corn visible 44,700,000 bushels, or more than double that of last year. Offerings were heavy after that with itteledemand. Receipts 613 cars, were way over estimated. Cables were 4,675d lower. Charters none. December ranged from 26% to 26% c, closing 4c lower at 25% c sellers.

Oats were lower all day, largely the result of sympathy with corn. A fairly good business was transacted. There was a fair demand for December, but May was offered freely, the consequence being a widening of the epread between the two options. Elevator concerns were the principal traders. Receipts were 393 cars. There was a good shipping inquiry. December ranged from 184c to 18c and closed 4c lower at 186184c.

Provisions were heavy to begin with on the heavy receipts of hogs and it was kept in that condition by the radical weakness of corn. The only sustaining influence was a good cash demand. Trade was quiet and declines were small. At the close December pork was \$c lower at 37.82½; December lard 2½@5c lower at 43.32½ and December ribs 2½@5c lower at 43.42½ and December ribs 2½@5c lower at 34.52½ and December at 34.52½ and December at 34.52½ and De

Estimated receipts Tuesday: Wheat 300 cars; corn 690 cars; oats 365

CHICAGO—Cattle ruled weak to-day. The range of prices was very wide—from \$3 55@4 00 for a few very ordinary lots of native dressed beef steers up to \$5 00@5 20 for choice to extra shipping cattle, with the bulk of the sales at \$4 50 @5 10. Exporters around \$4 75@5 00. Cows and heifers \$3 40@4 50, and few cows sold below \$3 40. Bulls were wanted at \$2 55@3 75 for bolognas, \$3 00@3 35 for feeders and \$3 50@4 25 for exporters. In hogs the liberal offerings resulted in a weaker feeling and prices declined on an average 5c, with some sales of common swine at a reduction of 10c. Sales were at an extreme range of \$3 30 @3 35 for hogs and \$2 75@3 90 for pigs, with sales largely at \$3 50@3 30 for pigs and \$2 50@3 00 for common natives up to \$4 00@4 50 for good to extra offerings. Lambs were about 15c lower but sold actively at \$4 00@5 75 for inferior to prime lots. Feeders bought a good many sheep at \$3 50@4 00 and lambs at \$4 50@4 75. Receipts, cattle 22,000 head; hogs \$45.000 head; hogs \$45.000 head; CHICAGO-Cattle ruled weak to-day \$4 50@4 75. Receipts, cattle 22,900 head; hogs 48,000 head; sheep 25,000 head.

hogs 48,000 head; sheep 25,000 head.

EAST LIBERTY—Cattle slow; prime \$4.85\pi_5 00; common \$4.25\pi_3 75; feeders \$4.00\pi_4 50. Hogs lower; prime medium weights \$4.05; best Yorkers \$4.00; common to fair Yorkers and pigs \$3.85 \pi_3 95; heavy hogs \$4.00\pi_4 05; roughs \$3.25\pi_3 50. Veal calves \$6.00\pi_6 40. Sheep steady; choice \$4.20\pi_4 30; common \$2.75\pi_3 35; choice lambs \$5.30\pi_5 50; common to good lambs \$4.00\pi_5 20. CINCINATIL Hogs dull and lamb CINCINNATI-Hogs dull and lower at \$3 09@3 85.

Petroleum.

OIL CITY-Credit balances 65c; certificates, sales at 67c; closed at 66\(\)2c bid. Shipments 253,480 barrels; runs 176,702 barrels.

NEW YORK-Petroleum, Pennsylva nia crude, no market; nominally 85c. Metals.

NEW YORK—Pig iron, warrante closed very dull at \$6.90 bid; \$7.00 asked Copper dull, \$1.00 bid and \$11.10 asked. The easy at \$13.75 bid and \$13.85 asked. Spelter quiet at \$4.15 bid and \$4.25 asked. Lead, exchange dull, \$3.90 bid and \$3.95 asked; brokers firm at \$3.87½.

Dry Goods.

NEW YORK-The conditions in the dry goods market are unchanged. Print cloth market still rules very dull at 2%c, sales of odd goods being still in excess of those of 64 squares.

Wool NEW YORK-Wool firm,

RICH and poor alike suffer the tor-

tures that come with that terrible, plague, Itching Piles; rich and poor alike find instant relief and permanent cure in Doan's Ointment. Your dealer

WARNING: — Persons who suffer from coughs and colds should heed the warnings of danger and save themselves suffering and fatal results by using One Minute Cough Cure. It is an infallible remedy for coughs, colds, croup, and all throat and lung troubles. Charles R. Goetze, Market and Twelfth streets; Chatham Sinclair, Forty-sixth and Jacob streets; A. E. Scheele. No. 607 Main street; Exley Biros. Penn and Zane streets; Bowle & Co., Bridgeport.

Pites: Pites I Itching Pites.

SYMPTOMS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore, SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At Cruggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. Iths&w
